Catalog Year: 2010-2011

The following is a sample course of study. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

Your path to graduation may vary slightly based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning and placement in Mathematics. You are responsible for checking prerequisites to any courses.

Total: 125 hours									

¹Constitution requirement may be satisfied by taking either HIST 101 or 102 or 306 or POLSC 210

²Requirement may be waived if students have an ACT English score of 30; or SAT verbal score of 630; or AP English Lang/Com score of 4.2. Students may take ENGL 225 during the summer to offset a regular semester course load. WEPT or Written English Proficiency Test should be taken following the successful completion of ENGL 225, but must be taken the semester before enrolling in ECE 402WI.

³Students must have successfully passed (with a "C" or better) Pre-calculus or a combination of a College Algebra and Trigonometry or have taken four (4) units of high school mathematics including trigonometry. Note: Enrollment is restricted. Students must pass the online Math Entrance Test prior to enrolling. See <http://cas.umkc.edu/math/> for more details.

⁴Students may take two Humanities and Fine Arts (HFA) electives or one HFA and one ME 130 course. HFA electives include Art, Communication Studies, Conservatory, English (beyond composition), Foreign Language (not native to student), Philosophy or Theater

⁵Students may select to take either ECON 201 or ECON 202 in place of CE 211.

⁶Students need to select between ECE 358, Intro to Control Systems or ECE 474, Intro to Communications Systems, but only take one.

⁷Three of the four senior electives must be from either the Electrical Engineering or Computer Engineering track. Students may take an additional four courses beyond the bachelor's degree for a special concentration area. Other courses, such as special topics courses, might fall in a concentration area as determined by the ECE - undergraduate curriculum committee. These are a special area grouping of the courses known to be taught on a regular basis. Other courses are available when there is sufficient demand.

⁸Biology 102 may be taken anytime during the student's course of study and is not restricted to the senior year. With permission, students may chose to take Chemistry 211 with its lab instead of Biology 102.

⁹Students may chose to take a Social and Behavioral Science Elective instead of CE 311. SBS electives include: Criminal Justice, Geography, Economics, History, Political Science, Psychology, or Sociology

¹⁰Qualified students might be able to participate in the Fast-Track Program taking graduate level courses-see graduate advisor.

The School reserves the right to make changes in courses, degree requirements, and course schedules without notice.

Students are expected to maintain a quality of achievement significantly above minimum UMKC standards for degree work. Individual student progress will be monitored throughout the program. Satisfactory progress is required of all students for retention in the program. Students are expected to maintain academic standards, perform satisfactorily in courses, refrain from academic dishonesty, comply with the established University and teacher education timetables and requirements, and refrain from unethical or unprofessional behavior or behaviors that obstruct the training process or threaten the welfare of the student or others. Other circumstances involving student behavior will be addressed by the faculty on an individual basis.
