

Four-Year Graduation Plan - Courses and Critical Benchmarks

The following is a sample course of study. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement. **All incoming freshmen must develop an academic plan (which maps out all courses needed to graduate within your intended major/degree). Your academic advisor is available to meet with you and create your specific plan.**

*Your path to graduation may vary slightly based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning and placement in Mathematics. You are responsible for checking prerequisites to any courses. Critical Courses and minimum recommended grades (as noted below) provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.*

First Math	<b>MATH 110 College Algebra</b>	Foreign Language Requirement	<b>Third Semester Proficiency</b>	Free Elective Hours	<b>No Free Electives</b>
------------	---------------------------------	------------------------------	-----------------------------------	---------------------	--------------------------

Transfer Credit Notes:

- AP, IB, CLEP, or transfer credit may be applied to select courses below. See [UMKC Registration and Records](#) for details.
- Students may satisfy the DISC 100 requirement with ACT English subscore of 30 or above or SAT verbal subscore of 690 or above.
- This sample plan assumes a student has completed two years of the same foreign language in high school.
- Students entering the six-year medical program with nine or fewer degree applicable hours toward the BLA will fulfill the College's foreign language requirement with MED 9115: Medical Terminology and Classics and C391WI: Ancient Greek and Roman Medicine (instead of Foreign Language 120 and 211).

## Policy

The School of Medicine and College of Arts and Sciences reserves the right to make changes in courses, degree requirements and course schedules without notice.

Students are expected to maintain a quality of achievement significantly above minimum UMKC standards for degree work. Individual student progress will be monitored throughout the program. Satisfactory progress is required of all students for retention in the program. Students are expected to maintain academic standards, perform satisfactorily in courses, refrain from academic dishonesty, comply with the established University and teacher education timetables and requirements, and refrain from unethical or unprofessional behavior or behaviors that obstruct the training process or threaten the welfare of the student or others. Other circumstances involving student behavior will be addressed by the faculty on an individual basis.
