What's a Mega-Major? Offered through UMKC’s University College (UCollege) Mega-Majors are a starting point for students who have yet to decide on a specific degree path, or need additional academic preparation before transitioning into their intended major. **Mega-Majors allow students to explore areas of interest and get expert guidance on academic and career planning while completing coursework for UMKC’s General Education Core requirements.** Prior to completing 60 credit hours, students are expected to declare a major with another UMKC Academic Unit.

Please Note: Students who do not place into MATH 110 College Algebra, MATH 116 Math for Liberal Arts, or higher may have to complete preparatory math coursework, potentially adding 3 or more hours to the total required for their degree.

Policy

The University reserves the right to make changes in courses and course schedules. Students are expected to maintain a quality of achievement significantly above minimum UMKC standards for degree work. Individual student progress will be monitored throughout the program. Satisfactory progress is required of all students for retention in the program. Students are expected to maintain academic standards, perform satisfactorily in courses, refrain from academic dishonesty, comply with the established University requirements, and refrain from unethical or unprofessional behavior or behaviors that obstruct the training process or threaten the welfare of the student or others. Other circumstances involving student behavior will be addressed by the faculty on an individual basis.
